## This Trading Floor Research report contains:

- A hedge play in Tech stocks (Selling the NASDAQ and buying Computer-Networking stocks)
- B.O.S. Better Online Solutions (BOSC). A new buy candidate in Computer-Networking industry group.
- Lantronix Inc. (LTRX). A new buy candidate in Computer-Networking Industry group.
- I hope everyone had a great Memorial Day weekend. Let's get back on the trading floor!

## NASDAQ and Computer-Networking hedge trade

The NASDAQ (QQQ) is very close to completing an A-B-C corrective move higher from the impulse move lower that started on April 27, 2021 and ended on May 12, 2021. The QQQ corrective move did a throwback into the trend-line that was broken to the downside on May 10, 2021. (Refer to chart on next slide) You might also notice that the QQQ's have consistently closed below the 334.98 Fibonacci resistance number last week to complete the rally.

Volume continued to weaken as the QQQ's rallied into Fibonacci resistance and the broken trend-line. There was only one day of institutional accumulation in this most recent rally attempt, and the distribution count on the NASDAQ stands at 4. Overall Accumulation/Distribution on the NASDAQ stands at D-. This sets up a potential move lower on the QQQ's this week. (Refer to chart on next slide)

I am playing this move by buying the **ProShares UltraPro Short QQQ (SQQQ)**. This is an ETF that provides 3x the potential move lower in the QQQ's.

Purchase the SQQQ if the **QQQ closes below 332.87 on a 30-minute chart**. This will trigger a confirmed sell signal on the QQQ's.

The downside target numbers **1<sup>st</sup> target is 307.39-305.62, 2<sup>nd</sup> target is 385.51-279.50**.

**Stop with daily close on QQQ above 340.45**

All ten computer software industry groups, computer hardware, computer integrated systems, computer data storage, and computer tech services continue to be in a sell signal. This is not much different from what I see in the rest of tech including Semiconductors, and Biotech. The continued weakness in almost every technology industry group supports the move lower I lay out for you in the potential move lower of the QQQ's.

## NASDAQ and Computer-Networking hedge trade (Continued)

There is only one technology group that flashed a buy signal last week. It is computer-networking. This could support a move higher in stocks that will benefit from 5G. Until last week, I have seen no stocks that have shown any interest in moving higher based on 5G economic potential.

The buy signal in computer-networking and the sell signal in the NASDAQ, have set up a potential hedge position in technology stocks for this coming week.

If both sides of the trade trigger, we could be long the strong computer-networking group, and short the QQQ's. This hedge would allow us to be long without taking on all the risk of a selloff in the NASDAQ.

I am currently focused on two leaders in the Computer-Networking industry group.

They are **B O S Better Online Solutions (BOSC)**, and **Lantronix Inc. (LTRX)**.

- Buy candidate: **B O S Better Online Solutions (BOSC)**
- Industry Group: Computer-Networking. The group currently ranks as the 109<sup>th</sup> strongest industry group in the market out of 197 and is up 15.37% YTD. The industry group consists of stocks that will benefit from 5G rollout.
- BOSC is an Israeli provider of robotics, RFID hardware, mobile solutions and supply chain products and services
- BOSC has set up in a Cup-with-handle base since March of 2019.
- BOSC is ready to break the trendline at the top of its base and give a buy at 3.90.
- BOSC will give a 30-minute buy signal and break trendline at 3.74
- **BOSC can be bought with a 30-minute close above 3.74 with above average volume.**
- Start position at 1-star(\*)
- Under institutional accumulation with an Up/Down Volume ratio of 2.4.
- BOSC closed at **3.65**.
- **Buy BOSC as close to 3.75 as possible. Do not pay more than 3.90.**
- **Don't chase BOSC in this market. Let it come to you.**
- BOSC VWAP is at 8.56.
- Sell target prices: **1<sup>st</sup> target 12.43, 2<sup>nd</sup> target is 14.06**
- Stop sell price: **Close** below **8.18**.

- **1) LTRX can be bought on a throwback to 5.50 and a**
- **2) LTRX can be bought with a 30-minute close above Friday's high at 5.57.**
- Start position at 1-star(\*)
